The diagram below depicts the giving units that pledged a monthly amount in 2024. The diagram represents 32 giving units. If it is helpful you can find yourself (or where you might like to be on this diagram) to guide your discerning. The farthest right column shows the percentage of the budget that each particular stair step represents.

Our goal this year is to have **every giving unit return an "Intent to Give" card** (in person or by e-mail) by December 8th so we can have a "Consecration Sunday" and a celebratory event as we determine what our total amount pledged for 2025 will be. Please be a part of meeting this goal. No matter the amount (even \$0) every pledge helps us plan.
